Hurricane Protection and Flood Risk Reduction in Coastal Louisiana

State of the Coast 2018

Wednesday, May 30, 2018 | 10:30am-12:00pm | Room 209

committed to our coast

Louisiana Coastal Protection and Restoration Authority

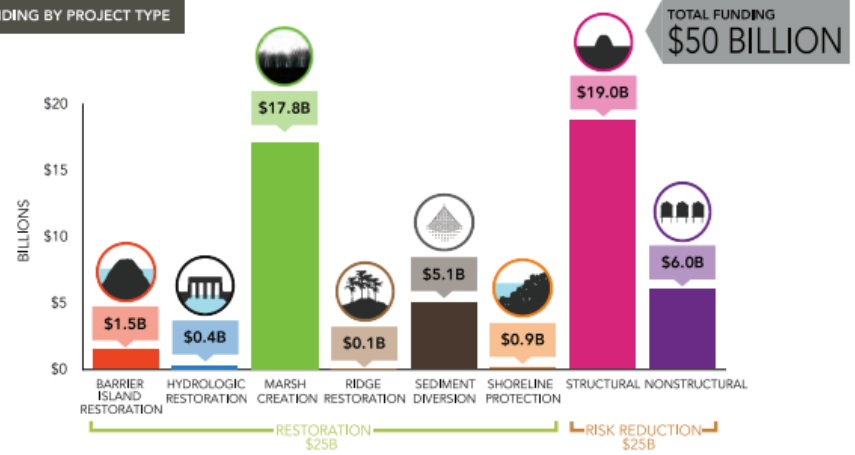

State of Louisiana
The Honorable John Bel Edwards, Governor

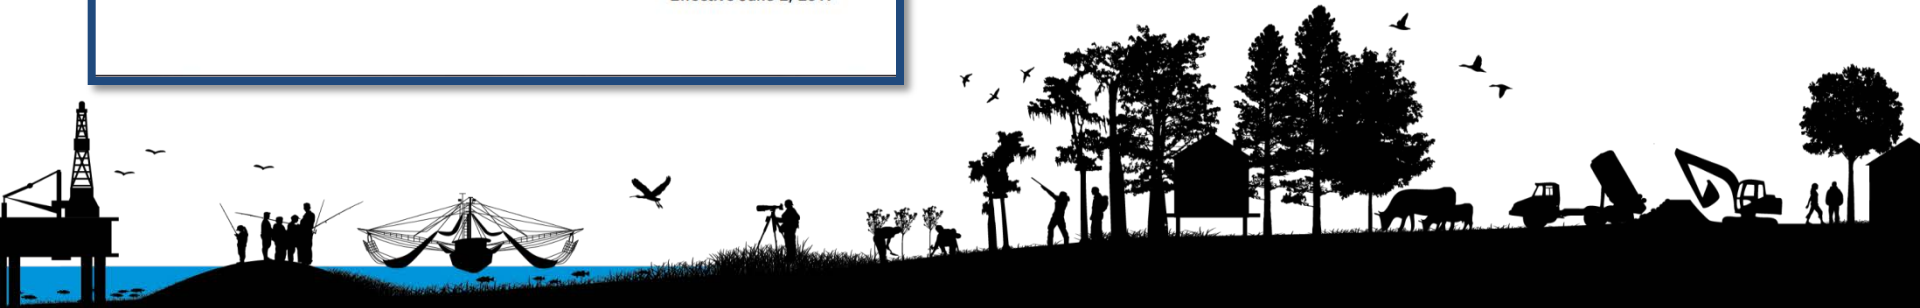

Louisiana's Comprehensive Master Plan for a Sustainable Coast

committed to **our coast**

FUNDING BY PROJECT TYPE

Effective June 2, 2017

Hurricane Protection and Flood Risk Reduction in Coastal Louisiana

- This session will provide an overview of challenges and opportunities facing Louisiana, CPRA and levee districts as efforts continue in implementing Hurricane and Storm Surge Protection Features and Systems across the coastal zone.
- This session will focus on the working relationships between the Federal, State, Local Governments, and Local Levee Districts to reduce flood risk and improve the sustainability of our coastal landscape, communities, and economic future.
- This session will provide examples of these relationships as well as a review of several programs and projects where implementation of hurricane and storm surge protection continues.

Hurricane Protection and Flood Risk Reduction in Coastal Louisiana

- This session will focus on:
 - CPRA Programs, Flood Protection Systems and Individual Projects
 - UBRR, WSLP, HNC Lock Complex, etc.
 - Funding Opportunities
 - GOMESA, RESTORE, etc.
 - Feasibility and Planning Studies
 - South Central Study
 - Innovative Partnerships with the USACE
 - Future of the 408 Process
